

Adverb charades

What to do...

1. Read through the words in the list below with your helper.
2. They are all adverbs - that is, they tell us how something is done (e.g. I walked **quickly**).
3. Pick a word from the list then go out of the room. Come back into the room in the way described by the word you picked (e.g. make lots of noise if the word is '**loudly**').
4. Your helper has to guess the adverb you chose and say it (e.g. 'You walked through the door loudly').
5. If they guess the right adverb, you can tick it off the list. If they can't guess it after 3 goes, then you can leave it without a tick and come back to it later.
6. When all of the words have been ticked off, the game is over.
